UPDATE  
*SEPTEMBER 2008*

## THE BOLD AND THE BEAUTIFUL

With our September 2008 Trend Update we would like to give you a little teaser about the upcoming autumn/winter season. Beneath a very strong, architectural and almost armour-like silhouette and sculptural pointed heels there is just one particular key item to mention - the crystal choker.

If you wish that summer would never end and do not want to wear winter coats and boots, but would still like to add some new winter fashion to your wardrobe, then match one of these crystal eye catchers to your graphic clean look!

Please note that these are not finished designs.  
They illustrate the trend and are a source of inspiration only!
