## *NOT ONLY FOR LITTLE GIRLS!*

Amongst all the statement jewellery pieces on the catwalks of the past two seasons there was one especially outstanding phenomenon – the bib necklace. Don't worry – this has not really much to do with baby care. Also the most committed business ladies amongst us will fall in love and go for this fashionable grandness.

Bib necklaces are more or less oversized triangular waterfall formations of jewels, stones or metalwork originating from the Belle Epoque era to feature delicate jewel openwork. They have been seen on the recent season's runways of the likes of Burberry Prorsum, Alexander McQueen, Vivienne Westwood, Marni, Lanvin, Chanel – just to name a few. And they will be the ultimate adornment to your holiday wardrobe. The bib will even help your pair of old denim and that shabby t-shirt you love so much make you look like the belle of the ball – even more when it's made out of CRYSTALLIZED™ – *Swarovski Elements!*

Please note:  
The following illustrations are not completed designs.  
They illustrate the trend and are a source of inspiration only!

"The moon and stars seem awful cold and bright  
Let's hope the snow will make this Christmas right  
My friend the world will share this special night  
Because it's Christmas  
Yes it's Christmas  
Thank God it's Christmas  
For one night", Queen

AND A HAPPY NEW YEAR!
